

Due Diligence Analytics

Align investment and operational teams with a best-in-class Due Diligence solution

Allocator Due Diligence

Create and maintain standardized workflows adhering to compliance procedures at each stage. Enrich fund screening with Operational Due Diligence information.

Fund Due Diligence

Manage and complete due diligence questionnaires seamlessly in a secure and interactive environment.

Analytics

Incorporate quantitative and qualitative attributes for a holistic view. Analyze and unleash previously obscured information in emails and other documents.

Due Diligence Analytics

AlternativeSoft's Due Diligence Analytics solution is an all-in-one platform that streamlines Operational Due Diligence workflows between allocators and fund managers.

Leverage AlternativeSoft's ecosystem to exchange information, documents, and questionnaires seamlessly in a centralized and auditable manner.

Workflow Driven

Automate and standardize due diligence processes with customizable workflows. Improve collaboration and adhere to high compliance standards through use of automated flagging and interactive communication with managers.

Analytics

Extract and analyze information previously isolated in legacy platforms and processes. Incorporate best-in-class enterprise analytics to build a holistic view and improve the information gathering process.

Integration

Leverage AlternativeSoft's award-winning investment platform, enabling Investment Due Diligence and Operational Due Diligence teams to work as one on a single solution.

About Us

Established in 2005, AlternativeSoft is a leading multi-asset class platform with over 180 clients globally. AlternativeSoft specializes in asset selection, portfolio construction, due diligence, data warehousing and customized reporting.

With a combined AUM of over \$1.5tn USD, AlternativeSoft's clients include some of the world's largest pension funds, sovereign funds, endowments, fund of funds, and wealth managers. These clients use AlternativeSoft's solutions to: create a bespoke investment universe; perform sophisticated portfolio analysis; identify top performing asset classes; and enhance portfolios to improve performance while better managing risk.
