

CLOUD-BASED ANALYTICS FOR BEST HEDGE FUND SELECTION

Since 2005, AlternativeSoft has simplified the **asset selection** and **portfolio construction** process for institutional investors, empowering users by creating a personalised investment universe driven by **state-of-the-art analytics**.

With a total combined AuM over **\$1.5tn worldwide**, some of the world's largest institutions trust AlternativeSoft to identify and analyse multi-asset class portfolios of hedge funds, mutual funds, ETFs and private market funds.

SOFTWARE OVERVIEW

1. FUND FACT SHEET

- Download a one-page customizable fact sheet with your desired statistics, charts and graphs.
- Send the fact sheet to your clients.
- Play with the fact sheet in Excel.

2. FUND PEER GROUP

- Create your Peer Group, add your fund, compare your fund with a graph or in a table.
- See how the large investors in our platform rank your funds.
- Compare your Fund vs its Peer Group using any combination of the 1000's of statistics at your fingertips. Combine these statistics together to create "Weighted Rankings"
